ABOUT DEAFNESS

Some children are born with a **HEARING DIFFICULTY**, in other words, they can't use their sense of hearing like other children do. Some are born like this. In others, it occurs when they are older for different reasons.

In some cases, they wear hearing aids or cochlear implants to hear. And to communicate some use **SIGN LANGUAGE** and others use **spoken language**.

This is the story of Rosalía, a very creative deaf girl that resolves all sorts of enigmas as if she was a real **SPY**.

Get to know her and you will learn to be as resolute as she is...

Nothing, today *I'm*
not
inspired,

I have not been able to distract Miss
Cierraelpico... I always find **A TRIC**
baina gaur...

Kasu hau gero eta
zailagoa da,

VERY DIFFICULT.

Since my classmates
and I decided to take charge of the case, my

EINFALLIBLE SPY

sense of smell told me that this
investigation was going to be complicated.

We had been noticing the worried
FACES OF THE TEACHERS FOR SOME TIME
When suddenly, everything took
an unexpected turn.

Thanks to knowing
how to **READ LIPS,**
I managed to decode
during noon break a
worrying conversation between
the music teacher,

Faustino Golondrino,
and the science teacher

Luz Degàs.

How do I know how to read lips? Easy.

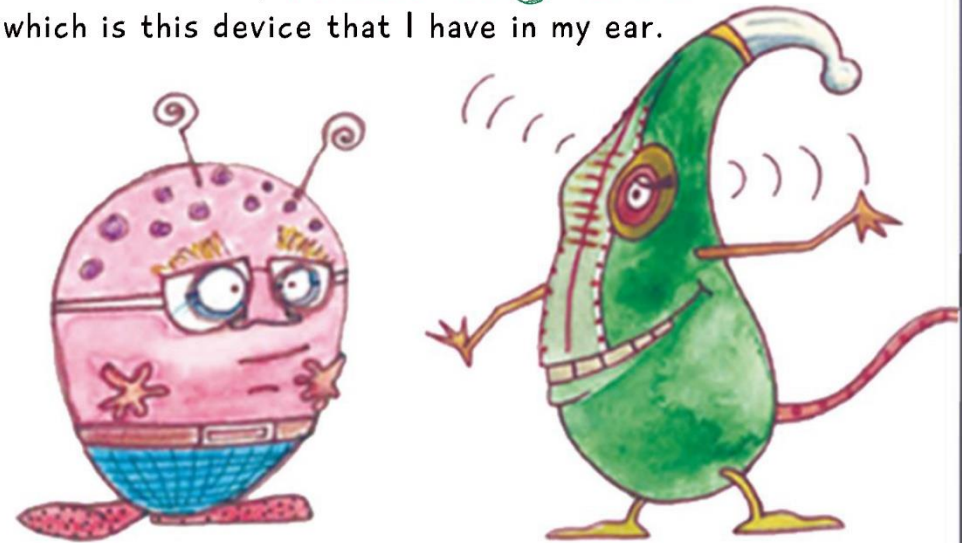

Reading lips is COOL, although it is a bit complicated.

IT'S LIKE LISTENING WITH YOUR EYES.

You have to carefully watch the movements of the lips when people are talking. And for this I have an eagle eye.

Also, I can hear phrases and sounds thanks to my hearing aid, which is this device that I have in my ear.

Print on a DinA4 or DinA3 size.

Color and trim along the solid line. Double by the dashed line

This strategy of **COMBINED TECHNIQUES**,
together with my intuition,
makes me a great spy.

Yes, I know that I am
a bit pretentious, but
what can I say, I love

spy books.

9

Returning to the conversation, which is what we
are interested in at the moment... reading the
teachers' lips, I found out that

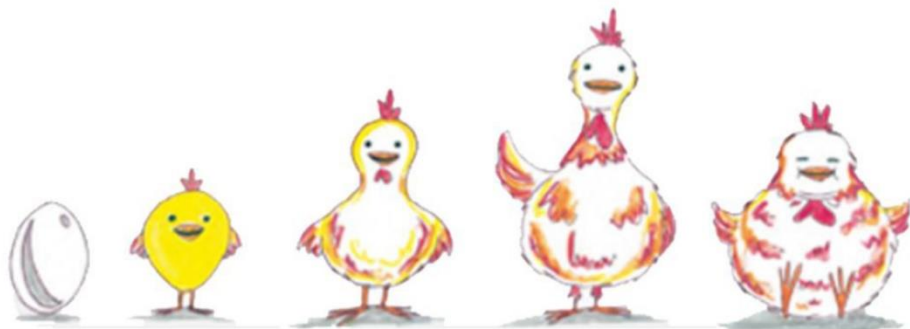

OUR LITTLE SCHOOL was going to be sold
to a livestock industrialist to turn it into a
chicken farm

for artificial fattening...

I thoroughly researched what
that meant and -

how awful!!!

Instead of "fattening" our "minds" with
subjects, they would "fatten" the "bodies"
of these **poor creatures...**

11

When I told my classmates about this

TERRIBLE DISCOVERY

nobody could believe it.

We all thought that if our parents and teachers
were not doing anything to stop it, it would have
to be us who acted. That was how we created

"The Order of the Schoolguix".

And here I am, leading
this secret rebellion
to defend

CULTURE

and

KNOWLEDGE...

13

In our strategy
we also use

SING LANGUAGE

which I have taught
to my classmates.

Sign language has been
very useful for our

SECRET.

communication.

Just like that, thanks
to my know-how, we have
created an

spy sistem

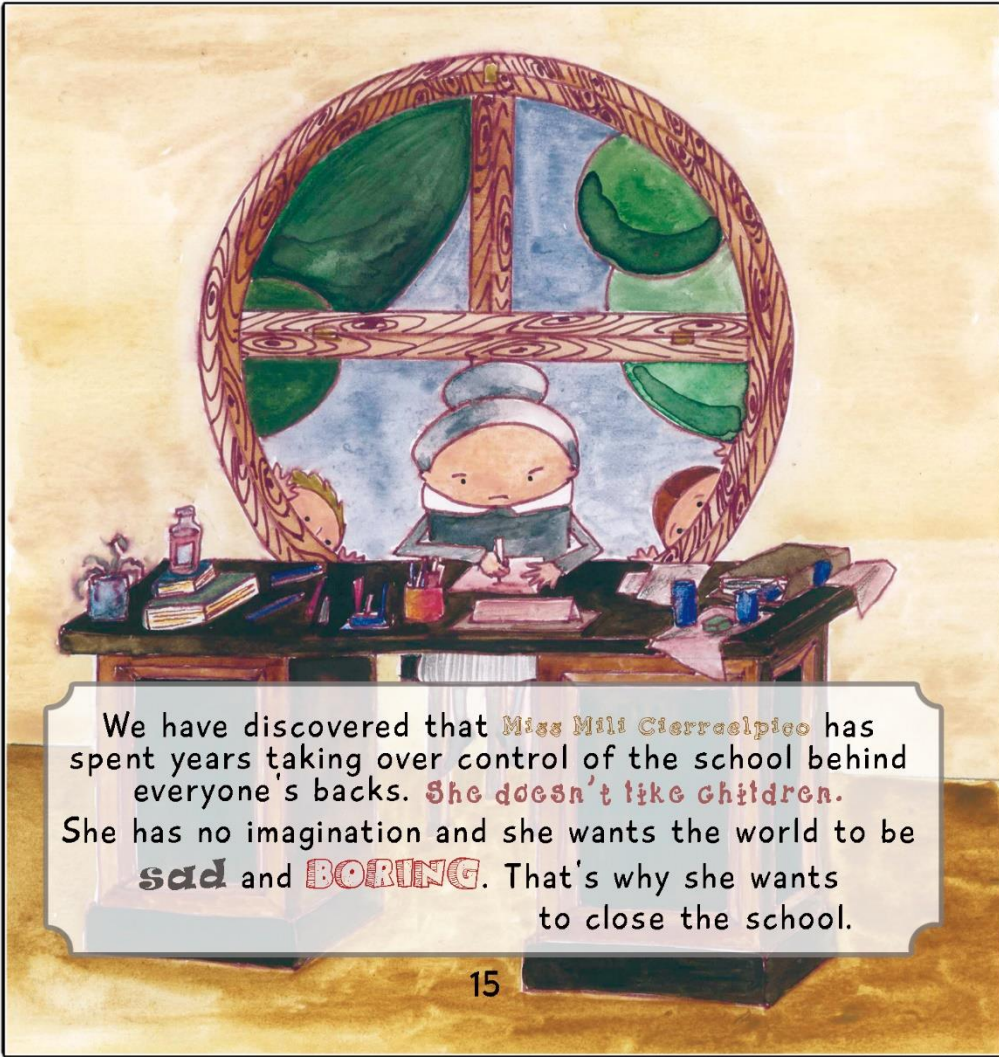

that allows us to carry
out lots of actions without
anyone finding out.

We have discovered that **Miss Mili Cierroelpico** has spent years taking over control of the school behind everyone's backs. **She doesn't like children.** She has no imagination and she wants the world to be **sad** and **BORING**. That's why she wants to close the school.

BUT SHE WON'T SUCCEED!

Little does she know who she is up against.

MY NAME IS ROSALIA THE SPY.

During my latest mission,
I discovered where she hides
all the documents that prove her
treachery.

I will hand them over to the parents
and teachers and they will
decide

HOW TO STOP HER.

Print on a DinA4 or DinA3 size.

Color and trim along the solid line. Double by the dashed line

When the case is completely solved, I will
 dedicate myself to **PERFECTING**
 my spy methods so I can solve all
 the injustices that I come across in the future.

Do you want to join me on this

GREAT
ADVENTURE?
